

## Sirens Mirror and Lights - Handmade by craftsman

Sirens is a combination of outstanding mirrors and light objects, that attract attention in a poetic way. The elegant silhouette is combined with shiny copper and extends into the living space bringing the mirrors and the ambient light aesthetically to the front.

The Sirens can be applied in different ways, to the wall or ceiling, as suspension, separately or in composition. They exist in three dimensions (Ø 161mm, Ø 210mm, Ø 265mm) and in different variations, as a mirror, a lighting object or a lighted mirror.

These models are available in different finishes: copper, black, white and RAL colours on demand.

Designer: Olga Bielawska
